What can YOU do as a family PMHNP?

- Provide psychiatric services and promote mental health for people across the lifespan.
- Seek an ARNP license with prescriptive and diagnostic authority in WA state.
- Work in a variety of settings including primary care facilities, outpatient clinics, psychiatric emergency services, hospitals and private practice.
- MAKE A DIFFERENCE in the lives and communities you support!

Psychiatric Mental Health Nurse Practitioner (PMHNP)

DOCTOR OF NURSING PRACTICE (DNP) DEGREE PROGRAM

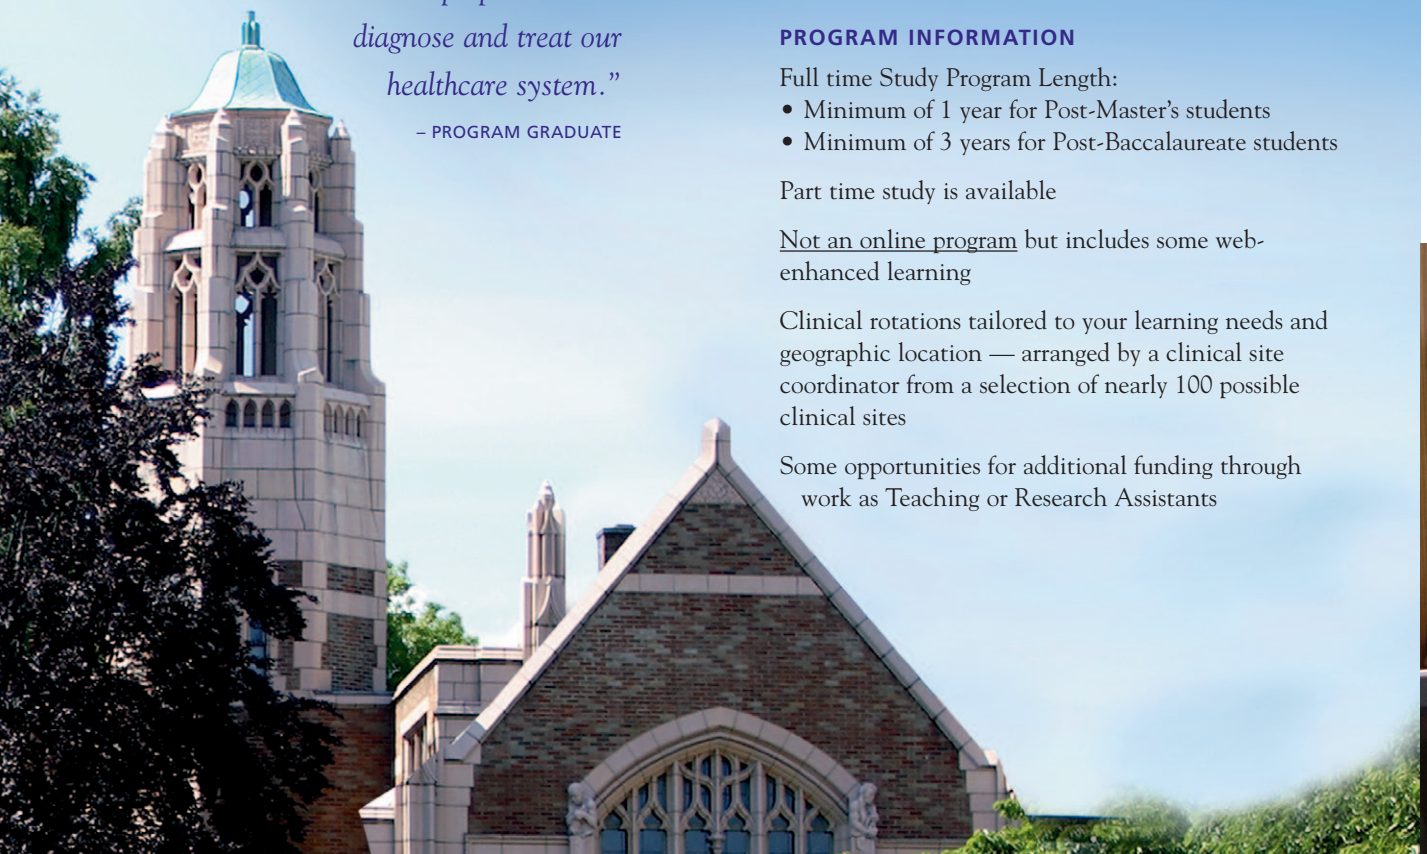
SCHOOL OF NURSING
UNIVERSITY *of* WASHINGTON

Why choose the UW School of Nursing?

The University of Washington School of Nursing is consistently a top-rated nursing school, according to *U.S. News & World Report*. Highly-ranked in research funding from the National Institutes of Health, the UW School of Nursing is a national and international leader in improving the health and well-being of individuals, families and communities. The school addresses society's most pressing challenges in health care through innovative teaching, award winning research and community service.

"Getting a DNP brought my nursing career to the next level! As a nurse practitioner I can diagnose and treat people and the DNP prepared me to diagnose and treat our healthcare system."

– PROGRAM GRADUATE



Why become a Doctor of Nursing Practice (DNP) in Psychiatric Mental Health Nursing?

Advanced Practice Nursing

- Clinical education that qualifies you to apply for national certification as a family PMHNP

Leadership Competencies

- Advanced clinical experiences in health care organizational leadership roles
- Training in developing networking and inter-professional collaboration skills
- Mastery of information technology
- Proficiency in understanding health care and organizational policies

Practice Inquiry

- Advanced skills for critically appraising and translating evidence into practice
