INTERNATIONAL MEMORANDUM OF UNDERSTANDING

UW SCHOOL OF NURSING

The School of Nursing MOUs are country-based initiatives that aim to develop new relationships and collaborations with institutions and universities abroad. The goal of our collaborations is to promote understanding of global health and to engage faculty, students and staff in collaborative research, teaching and outreach networks. The UW International Memorandum of Understanding (UW I-MOU) is a broad statement of cooperation by which the University of Washington and a non-US institution initially express an interest in establishing a new relationship that may result in future collaborative activities, such as faculty and student exchanges, joint conferences and/or research projects.
