

WHOLE FAMILY CARE

OUTPATIENT CARE

FAMILY NURSE PRACTITIONER

CARE FOR EVERY AGE, EVERY STAGE

Our Family Nurse Practitioner (FNP) track within the DNP degree program prepares you to provide comprehensive, holistic care focused on health promotion and diagnosis and management of individuals across the lifespan with stable acute and chronic conditions.

FNP practice focuses on optimizing physical and psychosocial health, caring for patients who are medically stable, and recognizing, diagnosing, and referring patients experiencing sudden or progressive deterioration. You will learn to work with individuals across the lifespan, from infancy through older adulthood.

Your Scope Expands

As a FNP graduate, you will:

- Conduct comprehensive health assessments and interpret diagnostics
- Partner with patients and families to promote wellness and prevent disease
- Diagnose and manage acute and chronic conditions
- Prescribe and evaluate treatment plans, including medications
- Apply developmental, patient- and family-centered care approaches
- Lead within healthcare systems and advocate for the nursing profession

Where You'll Practice

- Primary care and internal medicine clinics
- Urgent care
- Community health centers and public health clinics
- Medically underserved and rural practice settings
- Veteran's Affairs clinics and military healthcare facilities

"Working in a rural clinic, I'm often the only healthcare provider families see. Being able to care for everyone from newborns to seniors means I'm truly serving my community."

— Meg, FNP Graduate
