BIRTH & BEYOND

NURSE MIDWIFERY

COMPREHENSIVE REPRODUCTIVE CARE

The Doctor of Nursing Practice — Nurse Midwifery (NM) track within the DNP program prepares students to provide comprehensive reproductive, sexual, and primary care across the lifespan.

Focused on pregnancy, childbirth, and reproductive health, this three-year program prepares students to provide compassionate, culturally sensitive care. Graduates are equipped to assess, diagnose, and manage acute and chronic conditions while promoting overall wellness.

Your Scope Expands

As a Certified Nurse Midwife, you will:

- Perform comprehensive assessments and interpret diagnostics
- Promote health and prevent disease in partnership with patients and families
- Diagnose and manage acute and chronic conditions
- Prescribe and evaluate medication and non-medication therapies
- Apply developmental, patient- and family-centered care
- Lead within healthcare systems and advocate for culturally relevant birth care

Where You'll Practice

- Birthing centers
- Hospitals
- Ambulatory care clinics
- Private offices
- Community and public health centers
- Medically underserved and rural practice settings
- Military installations
- International health agencies

// *The journey to my DNP has been very enlightening specifically in the experiences of social justice, gender affirming care, and trauma informed care. These experiences are unforgettable and will take with me on this journey to becoming a midwife."*

— Arlene, DNP NM '21
